

# Cranston and the Housing 2030 goal

Housing 2030 growth category: Strategic · goal 1,367 homes permitted 2026–2030 (205 affordable), about 273 a year

|                                |                                                                   |                                                              |                                                          |
|--------------------------------|-------------------------------------------------------------------|--------------------------------------------------------------|----------------------------------------------------------|
| <b>273</b>                     | <b>158</b>                                                        | <b>59</b>                                                    | <b>48</b>                                                |
| homes a year the goal asks for | permitted in 2025, by the State's survey (58% of the yearly pace) | permitted in 2025, by the city's reports to the Census (22%) | certificates of occupancy in 2025, by the State's survey |

The goal is written in permits, and the State has not said which count will measure it. For Cranston the two counts agreed in 6 of the last eight years.

## NEW HOMES PERMITTED, TWO GOVERNMENT COUNTS

| Year | Census Building Permits Survey | State municipal survey | Same? |
|------|--------------------------------|------------------------|-------|
| 2018 | 64*                            | 64                     | yes   |
| 2019 | 56                             | 49                     |       |
| 2020 | 59                             | 59                     | yes   |
| 2021 | 50                             | 50                     | yes   |
| 2022 | 52                             | 52                     | yes   |
| 2023 | 37                             | 37                     | yes   |
| 2024 | 51                             | 51                     | yes   |
| 2025 | 59                             | 158                    |       |

## WHAT THE QUARTERLY UPDATE ADDS

Each quarter: the latest Census months against the pace the goal requires, the State's numbers when they publish, and, where the town shares its permit log, a permit-by-permit reconciliation of the two counts, so the number the town reports is the number it can defend.

Sources: U.S. Census Bureau Building Permits Survey, annual place files (\* fewer than 12 months reported; includes the Bureau's estimate). State: HousingWorks RI Housing Fact Books 2019–2024 (each reports the prior year; accessory dwelling units not counted), RI Department of Housing 2024 Integrated Housing Report Fig. 2.3, RI Executive Office of Housing 2025 Integrated Housing Report Figs. 2.1, 2.3, 2.4.
