

# Warren and the Housing 2030 goal

Housing 2030 growth category: Continued · goal 110 homes permitted 2026–2030 (16 affordable), about 22 a year

|                                |                                                                    |                                                               |                                                          |
|--------------------------------|--------------------------------------------------------------------|---------------------------------------------------------------|----------------------------------------------------------|
| <b>22</b>                      | <b>52</b>                                                          | <b>56</b>                                                     | <b>4</b>                                                 |
| homes a year the goal asks for | permitted in 2025, by the State's survey (236% of the yearly pace) | permitted in 2025, by the town's reports to the Census (255%) | certificates of occupancy in 2025, by the State's survey |

The goal is written in permits, and the State has not said which count will measure it. For Warren the two counts agreed in 6 of the last eight years.

The State's 2025 report marks this municipality as not having completed its survey before publication, yet prints figures for it.

## NEW HOMES PERMITTED, TWO GOVERNMENT COUNTS

| Year | Census Building Permits Survey | State municipal survey | Same? |
|------|--------------------------------|------------------------|-------|
| 2018 | 107                            | 107                    | yes   |
| 2019 | 6                              | 6                      | yes   |
| 2020 | 13                             | 13                     | yes   |
| 2021 | 22                             | 22                     | yes   |
| 2022 | 26                             | 26                     | yes   |
| 2023 | 6                              | 6                      | yes   |
| 2024 | 6                              | 26                     |       |
| 2025 | 56                             | 52                     |       |

## WHAT THE QUARTERLY UPDATE ADDS

Each quarter: the latest Census months against the pace the goal requires, the State's numbers when they publish, and, where the town shares its permit log, a permit-by-permit reconciliation of the two counts, so the number the town reports is the number it can defend.

Sources: U.S. Census Bureau Building Permits Survey, annual place files (\* fewer than 12 months reported; includes the Bureau's estimate). State: HousingWorks RI Housing Fact Books 2019–2024 (each reports the prior year; accessory dwelling units not counted), RI Department of Housing 2024 Integrated Housing Report Fig. 2.3, RI Executive Office of Housing 2025 Integrated Housing Report Figs. 2.1, 2.3, 2.4.
