

South Kingstown’s tax-exempt property, from the town’s own roll

Source. South Kingstown, *2024 Tax Roll – Exempt* (assessed December 31, 2023), 50 pages, published by the town. Every line was parsed into a dataset of 718 parcel and equipment lines across 180 accounts. The parsed total reconciles to the roll’s own exempt-tax lines to the cent: **\$17,612,348**.

What the roll exempts. \$1.59 billion of assessed value (\$1.49 billion real estate, \$102 million equipment and furnishings). At the 2024 rate of \$11.05 per \$1,000, that is \$17.6 million a year the town does not levy.

Owner	Exempt value	Tax not levied
University of Rhode Island (Board of Governors)	\$936.0M	\$10.34M
Other State of Rhode Island property	\$70.4M	\$0.78M
South County Hospital and affiliates	\$160.2M	\$1.77M
Town of South Kingstown	\$170.5M	\$1.88M
Federal (incl. Postal Service)	\$30.1M	\$0.33M
Churches and religious bodies	\$63.0M	\$0.70M
All other (land trusts, schools, charities, clubs, cemeteries, equipment)	\$163.6M	\$1.81M
Total	\$1,593.9M	\$17.61M

Questions the roll raises (not findings; each needs the assessor’s answer):

- **The state PILOT.** The state’s payment in lieu of taxes covers nonprofit hospitals and private colleges at 27% of the tax forgone. South Kingstown receives \$169,364 for FY2027. At 27%, that implies about \$627,000 of eligible tax forgone. The hospital’s exempt property alone carries \$1.77 million on this roll. Why the gap: different assessment dates, part of the property ruled ineligible, or something else?
- **URI.** Nearly 60% of the town’s exempt value is the University, and state property is outside the PILOT program entirely. \$10.3 million a year at the 2024 rate, with no state reimbursement.
- **Private owners.** Some exempt accounts are held by limited-liability companies (the largest, \$12.9 million, is at 681 Kingstown Road). Which clause of §44-3-3 covers each, and when was it granted?
- **Movement.** A single year shows the stock, not the flow. Comparing this roll with earlier ones shows which parcels moved from taxable to exempt, and when.

What a full audit adds. Several years of rolls joined parcel by parcel; the statute behind every exemption; the PILOT and voluntary agreements matched to the parcels they cover; a short report for the council and a dataset the assessor’s office can check line by line.

Method: text extracted from the published PDF, parsed by account and parcel line, and reconciled to the roll’s printed exempt-tax totals. FY2027 PILOT: R.I. Division of Municipal Finance, *FY 2026 Final Revised and FY 2027 Enacted State Aid* (Aug. 2026). Owner groups assigned from owner names and the roll’s state codes.
