

Pawtucket and the Housing 2030 goal

Housing 2030 growth category: Strategic · goal 1,353 homes permitted 2026–2030 (135 affordable), about 271 a year

271	190	2	14
homes a year the goal asks for	permitted in 2025, by the State's survey (70% of the yearly pace)	permitted in 2025, by the city's reports to the Census (1%)	certificates of occupancy in 2025, by the State's survey

The goal is written in permits, and the State has not said which count will measure it. For Pawtucket the two counts agreed in 2 of the last eight years.

NEW HOMES PERMITTED, TWO GOVERNMENT COUNTS

Year	Census Building Permits Survey	State municipal survey	Same?
2018	15	15	yes
2019	13	17	
2020	22	18	
2021	31	20	
2022	20	25	
2023	4	4	yes
2024	2	161	
2025	2	190	

WHAT THE QUARTERLY UPDATE ADDS

Each quarter: the latest Census months against the pace the goal requires, the State's numbers when they publish, and, where the town shares its permit log, a permit-by-permit reconciliation of the two counts, so the number the town reports is the number it can defend.
