

Providence and the Housing 2030 goal

Housing 2030 growth category: Strategic · goal 3,010 homes permitted 2026–2030 (301 affordable), about 602 a year

602	778	324	727
homes a year the goal asks for	permitted in 2025, by the State's survey (129% of the yearly pace)	permitted in 2025, by the city's reports to the Census (54%)	certificates of occupancy in 2025, by the State's survey

The goal is written in permits, and the State has not said which count will measure it. For Providence the two counts agreed in 1 of the last eight years.

NEW HOMES PERMITTED, TWO GOVERNMENT COUNTS

Year	Census Building Permits Survey	State municipal survey	Same?
2018	1*	892	
2019	197	282	
2020	213	248	
2021	54	128	
2022	299	299	yes
2023	5	1,081	
2024	269	622	
2025	324	778	

WHAT THE QUARTERLY UPDATE ADDS

Each quarter: the latest Census months against the pace the goal requires, the State's numbers when they publish, and, where the town shares its permit log, a permit-by-permit reconciliation of the two counts, so the number the town reports is the number it can defend.
